# FAQs

## 1. Why is there no response to pressing any button?

After powering on, Press and hold the lock button for 3 seconds to unlock the screen, and then click the setting button to enter the setting mode.

## 2. Why wasn't the food distributed at the set time?

- 1) Ensure the food size is less than 12mm, only suitable for dry food.
- 2) Check whether the food bowl is full of food, whether there is food residue at the food outlet, if so, please clean up in time.
- 3) If the spotlights detect food residue at the food outlet, the food behind will not be distributed.
- 4) Check if the turntable is jammed, if so please clean it first.
- 5) If it is battery-powered, please ensure there's sufficient battery power.

## 3. What is the amount of 1 portion?

One portion is about 10g.

## 4. How do I cancel the third feeding schedule?

Please set the feeding portion to 0
