Product Features

1. 360° irregular rotation: The butterfly on the top rotates randomly from left to right, and the butterfly base rotates smoothly, which add fun to catch butterfly.
2. Built-in touch sensor: The toy will automatically standby after working for 10 minutes. After touching or vibrating the toy, the bottom will rotate and the top will not work. If the toy is not awakened within 5 hours, it will automatically shut down.

Maintenance

1. Clean the surface with a dry cloth or a wet or dry cloth.
2. Use a DC5V/1-2A adapter for charging. Adapters of other specifications will damage the power supply.

Low Power Protection & Charging / Power Shortage

1. When the battery is low, the indicator light flashes red. Please charge the product.
2. The indicator light is red when charging, green when fully charged. Flashes red when low battery, and green when working.
3. It takes about 2-4 hours to fully charge. Please charge for 2 hours before first use.
4. The product will not work when charging / connecting the power cord.

Precautions

1. Please avoid dropping the product.
2. Do not rinse/soak the product.
3. Slight shedding of the included feathers is normal, please do not pull hard.
